

IDEAS

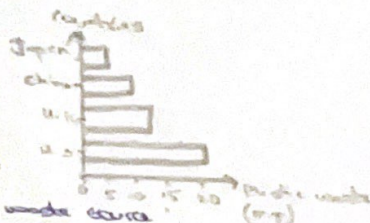

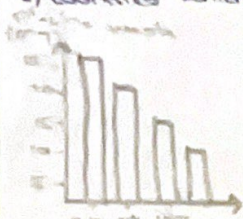

Chloropleth map

1) Recycling rates across different income levels

2) Countries which produce most plastic waste?

3) Plastic waste source

4) Recycling rate vs plastic waste produced

5) Plastic waste vs CO₂ emission

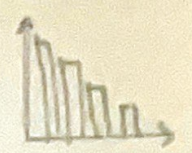

FILTER

Chloropleth map

Most plastic waste produced

Plastic waste source

Recycling rate

CO₂ emission

CATEGORIZE

Chloropleth map

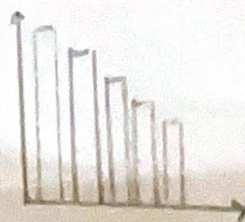

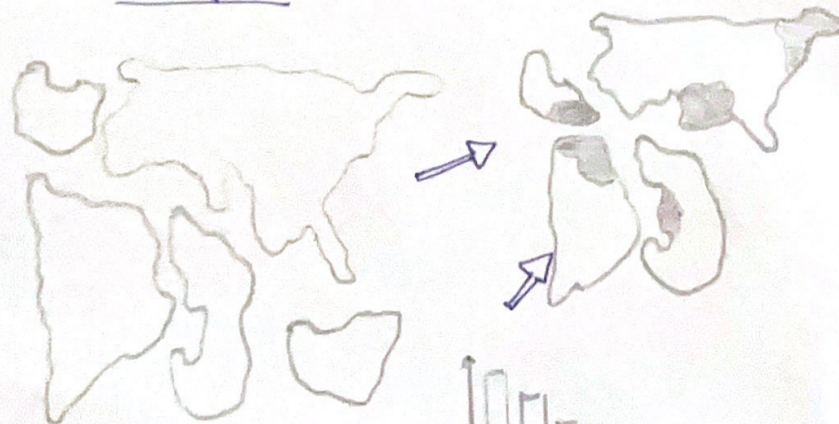

Most plastic waste produced

Plastic waste source

Recycling rate

CO₂ emission

COMBINE & REFINE

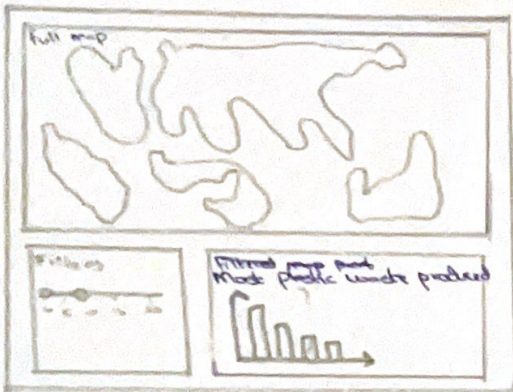

Questions

1) Was the combine & refine a good choice

2) Is this covering all the topic of plastic pollution?

TASK = Plastic Pollution visualization

OPERATION

Focus

Discussion

- * what else should I add to make it better?
- * Do I really need 2 maps or folded one to achieve?
- * Is this information sufficient & good?

TASK = Plastic pollution visualisation

OPERATIONS FOCUS

OPERATION

DISCUSSION

- * This is a good visualisation
- * Would it be better to make the filter to be able to compare two countries
